CAREER OBJECTIVE

As a third-year law student at Chulalongkorn University, I am passionate about the intersection of law and technology. I hope to contribute to the evolving landscape, particularly in the legal industries by combining my programming skills with legal education. Eager to gain practical experience in a collaborative setting with commitment to excellence, innovation, and education. My skills and enthusiasm would be an invaluable asset to any team.

EXPERIENCE

Chevron Thailand Exploration and Production, Summer Legal Intern **June 2024 – July 2024**

- Conducted in-depth legal research and analysis on technology and energy sector contracts, delivering insights on ongoing and future projects.
- Utilised programming skills to automate repetitive tasks within the legal department, including mid-year conclusions and work reviews, using generative AI, reducing manual effort.
- Analysed technical contracts related to technology and energy sectors to ensure compliance with legal standards and organisational policies, contributing to the mitigation of potential risks.
- Led and organised an intern panel discussion for Chevron Thailand and Asia-South management, successfully engaging over 100 participants.

programming.in.th, Frontend Developer **January 2022 – April 2024**

- Orchestrated the integration of a responsive user interface using NextJS, significantly enhancing usability.
- Enhanced user experience by implementing modern design principles and optimising navigation flows.

Student Government of Chulalongkorn University, Frontend Developer **July 2022 – June 2023**

- Developed and launched a website for the CU Freshy event, increasing event awareness and freshman participation.
